Nut-E Program

The Fall Product Computer Program, Nut-E, is back again this year! This user-friendly program helps SUFPM/ Troop Managers to easily enter girl's orders. We are excited to report that Ashdon has added some new features to Nut-E - making it even better! Here are a few highlights:

- ☞ A "Product Manager same as Troop Leader" check box was added to the Troop Detail page.
- ☞ The Total Sales column has been placed before the incentive breakdown.
- ☞ Drop down boxes have been added, so that users may select the appropriate SU, Troop or Girl.

Nut-E Tip Of The Week

Each edition of Nut e News will offer a Special Nut-E tip:

Log-in information is set as your email address and the generic password (given at training). As with all log-in information, when prompted to change your password - you should change it. Be sure to use numbers/letters and symbols to make your password unique and strong. If you are SUFPM and are having trouble logging-in to Nut-E, contact your region's Product Sales Associate.

☺ Please remember SUFPM's should help their Troop Managers with logging-in to Nut-E.

And in closing...today is Brittany's last day. Brittany, who joined the Product Sales Team in the middle of cookie and took charge of the West and North regions, has been a pleasure to work with and will be greatly missed by her team as well as the many volunteers in her regions. Best of Luck Brit!

Shelli Roosa will be managing the North Region in addition to the Northeast Region. Carey Miller will be managing the West Region in addition to South Central. Feel free to call or email them when you have a question or concern!
