

COVID-19 Message 3.14.20

In order to support troops whose sales will be affected by booth cancellations, we have reopened the Girl Delivery option in Digital Cookie! We encourage you to utilize this option in addition to the Gift of Caring donation option to engage with customers while maintaining safety measures. Shipping options remain available as well.

Additionally, many troops have asked customers to donate cookies with the promise of the troop donating those cookies to local medical staff, custodians, etc.

Lastly, those who feel comfortable with a more controlled option of a "Stand About" wherein girls may sell cookies outside of their home "lemonade stand style", under the supervision of a parent, may do so.

We urge you to make decisions based on local and state guidance. The safety of our girls, volunteers, parents, and community members is paramount. We will continue to discuss ways we can lessen the burden on troops who have invested in their girls cookie goals.
