

GSHPA on Wheels

Girl Scouts in the Heart of Pennsylvania (GSHPA) is going mobile through GSHPA on Wheels, an opportunity for Service Units and troops to bring GSHPA programming directly to their girls!

GSHPA on Wheels brings in-house programming on Saturdays to girls across our 30-county footprint. For a small fee, a GSHPA Program Coordinator will meet you at the location of your choice and provide all the necessary materials to provide programming. From your troop's meeting location, to a GSHPA camp property, we're ready to meet your girls where they are!

How it works.

Choose your Saturday.

When you request GSHPA on Wheels, you will indicate three Saturdays that work for you. We will always try to accommodate your first choice depending on Program Coordinators' availability.

Choose your time and location.

A minimum visit is two hours and a maximum visit is six hours. Within that time frame, we can run multiple sessions of the same program as a station at your event, or multiple programs for the same group of girls. Groups of 30 or more girls may need to be split into separate sessions.

Identify what Girl Scout levels will be participating.

We can work with one level in a day, or all six! Groups with more than three Girl Scout levels may need to be split into separate sessions.

Tell us how many girls will be participating.

We can accommodate groups from 10-100 girls. Payment is based on how many girls are in attendance, not how many programs are provided.

- \$50 for 10-20 girls
- \$70 for 21-40 girls
- \$90 for 41-60 girls
- \$110 for 61-80 girls
- \$130 for 81-100 girls

Choose your 60-minute experience.

GSHPA offers a variety of 10 engaging program options – keep scrolling to learn more!

It's Electric

Learn all about the world of circuits! Explore how electricity powers the world around us every day through hands-on activities!

Level: Daisy – Ambassador

Property Requirements: None

Other Requirements: Must include indoor space.

3D Design Challenge

Put on your thinking cap and figure out how you can create difficult your own 3D world! Then, make the world a better place as biomedical engineering helps people and animals!

Level: Junior – Ambassador

Property Requirements: None

Other Requirements: Must include indoor space.

Escape Room

Explore the world of secret codes and detectives, then test your skills through a series of super sleuth activities!

Level: Daisy – Ambassador

Property Requirements: None

Other Requirements: Indoor Space recommended for inclement weather.

Robotics

Design and create your own robot prototype while learning what makes a robot and why they are important to our future!

Level: Daisy – Ambassador

Property Requirements: None

Other Requirements: Must include indoor space.

Master Builder Engineering

Become a master builder! Learn about the steps it takes to design and build structures you see every day.

Level: Daisy – Ambassador

Property Requirements: None

Other Requirements: Must include indoor space.

Catapulting into Fun

Practice the basic principles around catapults, as well as force, precision, and accuracy.

Level: Daisy – Ambassador
