

# girl scouts in the heart of pennsylvania

We invite you to make a difference for girls today, next year, and years to come, by investing in programming and overnight experiences at a GSHPA camp property.

Whether you're considering pursuing one of our Girl Scout highest awards, service project or Take Action project, we've put together a few suggestions for projects on one of the 4 GSHPA camp properties.

These are only a guide and a suggestion. This list is of general ideas that could fit one, or all 4 of GSHPA camp properties. If you want to pursue a project on GSHPA camp property, reach out to Member Services for service projects, your Volunteer Support Coordinator for higher awards, and Rebekah or Brynne at [mygoldaward@gshpa.org](mailto:mygoldaward@gshpa.org) for Gold Award projects.

- Create and run an educational workshop for other girl scouts on one of our properties
- Organize an event on property to highlight an issue you would like to address
- Design and create a hammock camping village
- Create a geocaching or orienteering course
- Organize a tree planting
- Build or repair bridges for either general use, or handicap access
- Design and build a slingshot course
- Update lighting on a property to LED
- Create signage related to environmental or ecological topics
- Identify points of interest along a hiking trail with signage and a map
- Perform trail maintenance at a camp
- Create and design an activity kit (example: something that could be checked out for stream study)
- Offer to paint/sand/stain a building or pavilion
- Coordinate spring flower planting at the entrance to a camp
- Camp specific scavenger hunts (Ex: riddles for finding buildings and finding out facts/history related to that camp)

\*not all projects apply to all properties
