# **Dear Campers and Families**

**Welcome to summer camp!** An unforgettable summer awaits. Whether this is the beginning of your Girl Scout adventure or you're a seasoned camper ready for new challenges, camp is the ideal place to create lasting memories. Laughter, cheers, and camp songs will fill the air again, and we can't wait to share this incredible experience with each of you as part of our 2026 camp season.

This year, we've reimagined camp to offer even more chances to challenge yourself, discover new passions, and dive into exciting new adventures.

If your camper isn't already a Girl Scout, no worries at all! When she registers for camp, she'll become a member. Many girls come to camp each year as Juliettes, the Girl Scout term for individually registered girls who participate in Girl Scouts, without being part of a troop. And if your whole troop wants to sign up for camp together this summer, we have options for that too.

We understand that sending your daughter to camp means placing your trust in us to provide a safe and memorable experience. We take this responsibility very seriously, and we are grateful for the opportunity to help her make memories that will last a lifetime.

Please take a few moments to review the full 2026 Girl Scouts in the Heart of Pennsylvania Summer Camp Guide. We have an adventure waiting for your Girl Scout!

# What Makes Girl Scout Camp Special

### **Discover the Outdoors**

Archery. Swimming. Hiking. Ziplining. Rafting. High ropes. Low ropes. Campfires. S'mores. At camp, every girl is encouraged to step outside her comfort zone and gain confidence while having fun. Camp is truly a transformative experience. When girls leave home and immerse themselves in the camp environment, they not only learn new skills but also grow stronger, more confident, and happier — while forming lasting friendships. Our trained and experienced staff are dedicated to supporting girls, ages 5 to 17. Our fun and dynamic programs are tailored to girls' interests, allowing them to explore their passions and embrace healthy, exciting challenges in a safe and encouraging environment. At camp, every girl can increase interest, confidence, and competence in the outdoors. Set her free and watch her grow.

### **Disconnect from Personal Devices**

Residence camp offers all the benefits of technology as girls explore STEM in the outdoors while escaping from the burdens of constant cell phone connectivity. In our cell phone-free environment, girls focus on making new friends, in person, in real time, without filters or distractions. Girls: Be With Your Friends Who Are Here.

### The Girl Scout Difference: An All-Girl Environment

Girl Scouts provides a space just for girls, in which each girl is free to explore her interests and take the lead without the distractions or pressures that can be found in a mixed-gender environment. The fact is most of a girl's life is spent with boys. But the girl-led, girl-friendly space offered by Girl Scouts fosters collaboration instead of competition, and promotes support among girls, enabling them to stretch beyond their limits and transfer valuable knowledge and skills to any environment, both now and in the future. The need for female leadership has never been clearer or more urgent than it is today — and Girl Scouts is the premier girl leadership organization in the world.

Overnight summer residence camp is open to all who identify as girls, live culturally as girls, are recognized by family and friends as girls, and are biologically female. For those who live culturally as girls but are biologically male, feel free to explore our family and day-long girl programming events.

# Safety and Staff Training

Girl Scout Camp programs are designed to allow campers to take healthy risks in a safe and nurturing environment. Our experienced volunteer staff receive extensive training before camp and are chosen for their maturity, energy, and ability to be positive role models for your child. Camp Archbald meets all the established health, safety and program standards set by federal, state, and local government, as well as all standards set by Girl Scouts of the USA.

### Staffing - A focus on Caregiving

One of the most important components of a

good camp experience is the staff. We have a variety of camp staff including cooks, healthcare staff, activity staff, unit staff, and more.

All campers are under the supervision of trained camp staff 24 hours a day and all our staff are required to attend extensive precamp training.

Most of the volunteer staff at Camp Archbald are certified in American Red Cross First Aid/CPR/AED for children and adults. Additionally, Camp Archbald always has at least one certified nurse on property while camp is in session.

In addition to the above, our *waterfront staff* are trained in the following:

- American Red Cross Lifeguarding Course Requirement
- Waterfront Lifeguard requirements

Adventure staff are certified in safety, teaching, equipment, and emergencies by The Adventure Network which, in turn, is certified by the Association for Challenge Course Technology (ACCT). The ACCT is considered the top standard for safety and training in the adventure course industry.

# **Camp Medication Policy**

### Dear GSHPA Camp Parent/Guardian,

We want to make you aware of GSHPA's medication policy and help you understand it so you can plan and prepare for a safe and smooth summer. Pennsylvania has very specific regulations regarding what nurses can accept as documentation for medications, which may be different from what you're used to as a parent.

1. For our camp healthcare team to give **any medication**, **vitamin**, **or supplement**, we are required to have two things:

### A Prescriber's Order

Pennsylvania nursing regulations require nurses to have an official order from a licensed prescriber to administer medication. While we do have standing orders for common items like Tylenol and triple-antibiotic ointment, we cannot give any other camper-specific medications without a written order. Most doctors are familiar with this process, and it can typically be completed quickly—often by email.

### The Medication in Its Original Container

All medications, vitamins, and supplements must arrive at camp in their **original packaging** (from the pharmacy or manufacturer). They must be **unexpired** and will be given **exactly as the prescriber directs.** Nurses cannot change dosages or instructions from what is on the label or written in the order.

2. These steps help us keep every camper safe while ensuring they get the care they need.

In short, **ALL medications/vitamins/supplements** need to have:

- ✓ A dated **ORDER** from a licensed prescriber telling our nurses to give the medication. Including medications a parent/guardian might generally give without a prescription.
- ✓ Arrive in **ORIGINAL CONTAINERS** from pharmacy or commercial packaging.

### What Do I Need to Do?

- 1. Contact your child's doctor's office and let them know your camper needs an **order for each medication, vitamin, or supplement** they will take at camp.
- 2. You can use the **printable form** included in your camp registration confirmation email and parent guide to assist your provider, or your doctor may use their own prescription pad, stationary, or online ordering system—any of these are acceptable.
- 3. Make sure the order includes **all daily medications**, **vitamins**, **and supplements**, including over-the-counter items. Each medication, vitamin, or supplement must have its **own order**, even if it is normally given without a prescription at home.

### What about the occasional medications my child sometimes needs?

GSHPA camp nurses can give **as-needed medications** as long as you've approved them on your child's online health form. These are standard, camp-doctor-approved medications used only when necessary for their intended purpose. Examples include antacids, Tylenol, cough drops, topical itch relief, Benadryl, and antibiotic ointment.

Please note that these **do not replace daily medications** your child needs. If your camper requires something every day (like a daily allergy medication), you'll need to send that medication to camp for the nurse to administer.

# Can I just pack my camper's medications, supplements, or vitamins for them to take on their own?

Please don't. Integrity is one of the key values we hold at camp, and campers keeping medications in their bunks goes against our rules. Our policy of **no medications**, **vitamins**, **or supplements in the bunks** is in place to protect all campers.

On the first day of camp, we will have a designated time for campers to **hand in any items they are not permitted to keep.** If any medications are found after that time, it may result in an **early departure from camp.** Please help us avoid putting your child in that position by sending all medications through the proper process.

# **Frequently Asked Questions**

### Important: What level should I consider my Girl Scout to be when registering?

Be sure to register your camper for the Girl Scout level they will be in the fall of 2026, not what grade they are at the time of registration.

### What is the capacity for each available summer camp session?

All camp sessions will be filled on a first-come, first-served basis, so be sure to secure your spot. Some sessions at Archbald are filled via lottery based on the registrations received within the first 72 hours, so be sure to register for these programs early. A \$50 non-refundable deposit per camp session, per camper is required.

### Where will my daughter sleep?

Sleeping arrangements at overnight camp vary. Accommodations available at Archbald are platform tents, lodge, cabins, or houseboat.

### What are meals like?

There is nothing like activity and fresh air to make a camper hungry. Camp meals and snacks are healthy and kid-friendly. We offer a vegetarian alternative at each meal. During breakfast, a cereal bar and fruit are available in addition to the main meal. During lunch and dinner, we offer a fresh salad bar or other alternative as a supplement to the main meal. Most meals are prepared by our kitchen staff and eaten in the dining hall. Campers have the opportunity to cook at least once with their unit (weather permitting). Specific dietary needs can be accommodated by contacting **residentcampforsoca@gmail.com** by June 1st regarding dietary needs.

### Can my camper attend camp with a buddy or a friend?

Yes! During registration one buddy's name can be listed. Buddies must request each other and be registered for the same camp session to be paired together. We only accept groups of two to encourage girls to make new friends at camp.

But what if I come alone? Most girls come to camp without a buddy, so don't worry! You'll join a group of girls your own age who are excited about camp. Camp is a great place to make new friends!

### Can my camper call home during the week?

We encourage independence and self-reliance during camp and as such, cell phones are not permitted. The camp director will contact caregivers if a camper has a medical problem, is excessively homesick or there is an emergency. Campers found with electronic devices including (but not exclusive to) cell phones, ipods, ipads, smart watches, etc. will have their devices taken and stored in the camp office until pick-up. Please discuss this with your daughter prior to camp.

### What happens during storms?

Safety of our campers is our top priority, and our outdoor activities are dependent on the weather. Should we need to adjust activities due to unsafe weather conditions, your camper will enjoy activities that can be done indoors instead.

# **Frequently Asked Questions**

### How does the camp handle health care?

There is a health center located at camp and staffed around the clock by a health care professional, who is either a registered or licensed nurse. Caregivers are always contacted at the earliest opportunity in the event of serious injury or illness during camp. Our camp has an ongoing relationship with a health care facility nearby for consultation and emergency medical services if needed.

# What should I do if my camper has complicated medical issues that requires more intensive care such as diabetes?

Please contact <u>memberservices@gshpa.org</u> prior to registration, so that we can discuss your camper's individual medical needs and what accommodations would be required.

### Can I bring mail to camp, or do I mail it?

We highly recommend you hand-carry mail and leave it at check-in. Don't forget to put your camper's name, unit, and what day you would like the mail delivered. Mail is delivered to campers daily after lunch, during their rest hour.

### What are kapers?

Kapers are chores; it is important in Girl Scouting to learn that everyone must do their share. Sharing the kapers helps keep the camp program site tidy and safe. Responsibilities are rotated among the campers and could include picking up litter, collecting firewood, helping in the kitchen, and cleaning bathrooms. Camp staff also participate in each of these activities.

### Will my camper earn badges at camp?

Yes, if a badge is listed in the session description, then the badge will be distributed during the check-out process.

### Are electronics allowed at camp?

Items like cell phones, smart watches, and iPads are not permitted on camp by campers. If brought to camp, they will be labeled and kept in the office until check-out time.

### Will my camper get to do everything at camp?

Campers will have the chance to enjoy the activities detailed in their session description. While we aim to provide a variety of experiences, if an activity isn't specifically mentioned, we can't guarantee participation, particularly for adventure elements.

### Have additional questions?
